

Dear Prospective Business Partner:

Over 100,000 children were treated within the pediatric units of Shands Jacksonville and Wolfson Children's Hospital last year. With the help of Children's Miracle Network, many of them are now home, leading happy and healthy lives. Children's Miracle Network raises funds that directly benefit both pediatric programs through the purchase of medical equipment, child life activities and educational resources.

Children's Miracle Network is dependent upon community support and fundraising efforts to ensure its success. We help bridge the gap between what the hospitals have and what they need to better serve the patients and families.

By partnering with us, you will not only be doing an incredible service for the children in our community, but your business will gain wonderful and meaningful exposure throughout the region. Please consider what you can do to make miracles happen in the lives of local children. Through volunteering, sponsorship and donations, every bit counts towards improving the lives of these sick children.

From one time donations to employee moral fundraisers, Children's Miracle Network can work with you to custom fit the opportunity to your needs.

On behalf of the numerous volunteers, local sponsors and our staff, we would like to extend our heartfelt appreciation for your consideration of this opportunity. Please contact me with any questions you may have about Children's Miracle Network. We look forward to the prospective opportunity to partner with you.

Sincerely,

A handwritten signature in cursive script that reads "Nicole Ortman".
